

M. MOLEIRO EDITOR  
The Art of Perfection  
~ 30th ANNIVERSARY ~

For the past 30 years, **M. Moleiro Editor** has established a reputation as a leading publisher of ancient atlases, maps and illuminated manuscripts. Their exact replicas of the finest works of art and cartography will be on display at the **38th IMCoS International Symposium**.

You may visit M. Moleiro's display and enjoy first-hand the most beautiful atlases of the Age of Discovery at the **Opening Reception** on 11 October as well as during the **3 days of the Symposium, next to the conference room**. Among the items that are showcased is the atlas of the first circumnavigation of the earth, *Atlas Miller*.

And for those who cannot attend the event in Brussels, you may browse through Moleiro's collection of cartography here:

An M. Moleiro atlas is much more than a facsimile, it is a new original. The striking accuracy in re-creating the look, touch and even smell of the most precious treasures of the world's biggest libraries is achieved thanks to avant-garde technologies, artisanal know-how, and above all, great attention to detail.

The **superb quality bindings** match the exquisite contents and the accompanying **commentary volumes** provide an in-depth analysis.

*Atlas Miller, 1519–1522*
